6th WEST AFRICA WATER EXPO

THE ONE & ONLY WATER EXHIBITION IN WEST AFRICA

West Africa Water Expo: 6th International Water & Waste Water Exhibition which is organized by Elan Expo will be held on 21-23 May 2024 at Landmark Center in Lagos, Nigeria.

“WATER IS THE LIFE”

Nigeria is one of the biggest countries in Africa with its increasing population and annual GDP rates. With the increase in the population, the urbanization process is speeding and the local people have low-level access to improved water sources and sanitation. Wastewater Management in Lagos State as the case in other parts of Nigeria is minimal, with only a fraction of wastewater being treated.

Sanitation systems currently used in Lagos State include both government and private facilities. The government cannot afford to fill the gap that exists between the current capacity of the state water corporations and the required daily volume for the state's use. According to the government, the private sector is thus encouraged to invest in the sector.

“NIGERIA IS NOT A WATER-POOR COUNTRY, THERE'S A NEED FOR MORE INVESTMENTS.”

The General Manager of ELAN EXPO Mr. Suer AY illustrates his opinions about the **Nigerian Water industry** as; “Nigeria is not a water-poor country, it needs more investments. Nigeria produces 1800m³ of water per capita annually; there are enough water resources for domestic, industrial, agricultural, hydropower, transportation, and recreational uses but there is more need for modern wastewater treatment facilities during the rapid urbanization process. In this year's **WAVE Expo 2023** we served the local people to meet international suppliers for **water and wastewater treatment, water distribution equipment, water meters, household water systems, water pumps, and other plumbing installations.**

West Africa Water Expo 2023 attracted **120 global brands**, representing companies from 20 countries, as well as more than **6700 visitors** throughout the World: **Bulgaria, China, France, Germany, Ghana, India, Israel, Italy, Japan, Kuwait, Lebanon, Nigeria, S.Africa, S.
